FLIP is a workshop series dedicated to exploring online tools and instructional technology used to enhance learning in blended, hybrid, and online courses. FLIP meets on the 2nd Friday of every month during the academic year. This academic year’s theme is video and interactive media!

FALL QUARTER 2014

Session 1: Introduction to Camtasia
Date: October 10, 2014  
Time: 12-1PM Interactive Presentation; 1-1:30PM Open Practice Lab  
Place: Academic Surge 2363

UC Davis faculty are increasingly using Camtasia to produce instructional video. In this session, you will learn the basics for producing good video content. You’ll become familiar with the Camtasia interface, use the screen recorder, import media, and learn some basic video editing techniques.

Session 2: Interactive Images & Video with ThingLink
Date: November 14, 2014  
Time: 12-1PM Interactive Presentation; 1-1:30PM Open Practice Lab  
Place: Academic Surge 2363

ThingLink is a unique and easy-to-use interactive media development platform. It allows an instructor to “tag” images and video from the web with content and plug-ins from other web services to create rich and new connected ways for students to explore digital learning materials. Or “flip” it around and have the students create their own materials for an assignment. The possibilities are truly endless!

Session 3: Interactive Video with TED-Ed
Date: December 12, 2014  
Time: 12-1PM Interactive Presentation; 1-1:30PM Open Practice Lab  
Place: Academic Surge 2363

Most everyone is familiar with TED, the non-profit organization dedicated to the spreading of ideas in the form of short, powerful talks; but did you know that you can create an interactive, educational lesson around any TED (or YouTube) video? Come learn what this free tool is all about and walk away with your very own TED-Ed lesson!
